## Important Information for 2010

*This list is for informational purposes only and lists important information or major changes that have occurred since publication of the last hunt draw booklet. Individuals should thoroughly read and understand the appropriate regulations prior to making application or going afield. The current Arizona Hunting and Trapping Regulations can be found at [www.azgfd.gov](http://www.azgfd.gov), or at any Department office or license dealer.*

**Hopi Trust Lands** Hopi Trust Lands in Units 4A, 5A, and 5B are open to both state and Hopi hunters under an agreement with the Hopi Tribe. A percentage of tags are set aside for Hopi Tribal member hunters. Hunt numbers for these hunts must be obtained from the Hopi Tribe Wildlife and Ecosystems Management Program (refer to the notes associated with the individual hunts).

**Leftover Tags Available at Department Offices** There are now two methods to obtain a leftover tag. Paper applications will be accepted by mail only starting on Monday, Apr. 26 at 8 a.m. (MST). However, beginning on Monday, May 3 at 8 a.m. (MST), hunters can also obtain a leftover tag in person with a completed application from any of the seven Arizona Game and Fish Department offices. A list of office locations is available on this page or at [www.azgfd.gov/offices](http://www.azgfd.gov/offices).

**Elk Hunters: Over-the-Counter Nonpermit-Tags Available** Over-the-counter nonpermit-tags for elk are available in some hunt areas. Refer to Commission Order 4 (page 23) for open areas and season dates. Elk numbers in these hunt areas are very low; therefore, hunt success is expected to be very low. Make sure you obtain permission to hunt on private lands. These hunts will not affect your Bonus Points but do count towards your one-elk-per-calendar-year bag limit. More information on these hunts can be found on the Department's Web site at [www.azgfd.gov/otc](http://www.azgfd.gov/otc).

**New Mailing Address** Please be aware that the Department has changed its mailing address for hunt draw applications. **The new address is: Arizona Game and Fish Department, P.O. Box 74020, Phoenix AZ, 85087-1052.** Old envelopes (with the red stripe) will not be forwarded to the new address for this draw. Please be sure to use the new **green-striped envelopes** with the updated address.

**Hunter Questionnaire Has a New Look** The Arizona Hunter Questionnaire has a new look. In addition, you will have the opportunity to respond online or as always, by mail. The questionnaires help biologists make sound decisions regarding hunting in Arizona. Your response is key. Please return your Hunter Questionnaire.

**Juniors-Only Hunts** Discounted youth hunt permit-tag fees apply only to Juniors-Only Hunts. If you are applying for any hunts other than Juniors-Only, the higher of the hunt permit-tag fees must be submitted.

**For Reference to Laws and Rules** Arizona Revised Statutes and Commission Rules are printed in the Arizona Hunting and Trapping Regulations book, which is printed each May. To review an Arizona Revised Statute or Commission Rule mentioned in this document, refer to the current Arizona Hunting and Trapping Regulations book. Laws and rules also may be viewed at [www.azgfd.gov](http://www.azgfd.gov). Select Inside AZGFD in the left column. Then select Rulemaking Process.

**On the cover:** Macie Nelson with her bull elk taken November 2009. Tracer Bailey with a pronghorn he took in Unit 19A on opening day. Congratulations to both hunters!

# License Information

## Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags, or stamps. Neither a Class H Three-Day Non-resident Hunting License nor an Apprentice Hunting License is valid for big game.

**YOUNG HUNTERS** – Anyone 14 years of age or older needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags or stamps.

A person under 14 may hunt wildlife other than big game without a license only when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may take big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid hunt or combination hunt and fish license, a valid Hunter Education Course completion card, plus any required permit-tags, nonpermit-tags and stamps.

## Where to Buy Licenses

Arizona hunting licenses can be obtained from license dealers throughout the state or from any Arizona Game and Fish Department office (see locations on page 2 of this booklet).

A list of license dealers can be found at [www.azgfd.gov](http://www.azgfd.gov) by selecting the license box on the home page.

If you are applying for a big game draw or bonus points, you may purchase your general hunt or combination hunt and fish license while you are entering your application for the draw. The license will not be issued and mailed until refunds and hunt permit-tags are mailed per the schedule on page 12. If you wish to use your license before the draw is complete, you must pre-purchase a license before applying. Although they are valid for a big game drawing application, Family Licenses, Super Conservation Licenses, and Child General Hunting and

Combination Licenses **may not be obtained through the draw**; these licenses must be purchased at Department offices.

## Lifetime License Holders

If a lifetime license holder changes residency status from Arizona, the licensee must then purchase non-resident stamps, tags, and permits. A non-resident tag or stamp can accompany your lifetime resident license. If you are a lifetime license holder who has moved out of state, the 10 percent non-resident cap does not apply to you. The lifetime license will remain legal for the taking of all wildlife as permitted by law. Residency may be re-established after moving back to Arizona and meeting the required time period as defined below.

## Residency Requirements

A resident is a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application for a license or a tag, or a member of the armed forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license or a tag.

Arizona residents may purchase a resident license. All other individuals must purchase a non-resident license.

## Three-Day Non-Resident License

A Class H, Three-Day Non-resident license, valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds, upland game birds and migratory game birds, except ducks, geese and swans is available at all license dealers. This license is not valid for hunting big game nor is it valid when applying for big game hunts through the draw process.

## Apprentice License

Resident licensed hunters are able to obtain a free Apprentice Hunting License valid for two days for use when mentoring a new hunter. This affords new hunters the opportunity to “try before you buy,” under the supervision of a licensed hunter.

An apprentice hunting license is valid for two days when the apprentice is accompanied in the field by a mentor. An apprentice hunting license is valid for the taking of small game, fur-bearing

animals, predatory animals, nongame animals, nongame birds and upland game birds. Any required stamps must be purchased in addition to obtaining an Apprentice License. An apprentice may be a resident or nonresident and may only be licensed pursuant to this paragraph once per calendar year. A mentor must be a bona fide resident of this state who is at least 18 years of age and must possess a class F, G, J, K, M or N license or a complimentary or lifetime license. A mentor may apply for no more than two apprentice hunting licenses per calendar year. When applying for an apprentice license, the mentor must name the person he or she will be taking afield. Consult A.R.S. 17-333 for more information.

## Lost License or Tag Replacement

Lost licenses, hunt permit-tags and nonpermit-tags may be replaced for a \$4 fee at any Arizona Game and Fish Department license dealer. Consult R12-4-103 Duplicate Tags and Licenses for additional information. Stamps cannot be replaced, they must be repurchased.

## Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/Mobility Permit (CHAMP). Consult R12-4-217 for a description of this permit. Contact any Arizona Game and Fish Department office for additional information and application.

## Non-US Citizens Wanting to Hunt in Arizona

Pursuant to new regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), non-immigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import permit and valid hunting license in possession at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import Branch at (304) 616-4550, or download an application from the ATF Web site at [www.atf.treas.gov](http://www.atf.treas.gov).

## Tag Transfers

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags to children.

A parent, grandparent or legal guardian holding

## License Information

a big game tag may allow the use of that tag by their minor child or minor grandchild pursuant to the following requirements:

- The minor child is 10 to 17 years old on the date of transfer;
- The minor child has a valid hunting or combination license on the date of transfer;
- A minor child less than 14 years old has satisfactorily completed a Department-approved hunter education course by the beginning date of the hunt;
- The parent or guardian must accompany the child in the field or, if a grandparent allows a minor grandchild to use the grandparent's permit or tag, the grandparent, parent or the

child's guardian must accompany the child in the field. In either case, the adult must be within 50 yards of the child when the animal is taken.

Once a tag is transferred at a Department office, the original permittee may no longer use it.

A person may also transfer his or her game tag for use by a child with a life threatening medical condition or a qualifying permanent physical disability. Consult A.R.S. 17-332 for more information, or visit [www.azgfd.gov](http://www.azgfd.gov).

Should you be unable to use your big game permit, the Department is unable to reimburse

you for your fees or reinstate your bonus points. However, you may donate your tag to a nonprofit organization that provides hunting opportunities to children with life-threatening medical conditions or qualifying permanent physical disabilities. You may contact the following organizations to arrange for a donation.

- Hunt of a Lifetime at [www.hoalarizona.org](http://www.hoalarizona.org).
- Outdoor Experience 4 All at [www.outdoorexperienceforall.org](http://www.outdoorexperienceforall.org)
- Catch-A-Dream at <http://catchadream.org>.
- United Special Sportsmen Alliance at [www.childswish.com](http://www.childswish.com).

## Remember Wildlife at Tax Time

- The Arizona Wildlife Fund is a voluntary program that allows you to help conserve the state's wildlife simply by checking the "Arizona Wildlife" box on your annual state tax return.
- Since Arizona started the program more than 25 years ago, contributions to the fund have aided the conservation and reintroduction of many species, including bald eagles, black-footed ferrets, California condors, Apache trout, Mexican wolves and several of the state's most intriguing desert reptiles and amphibians.
- Arizona taxpayers have donated more than \$5 million to the conservation of nongame animals. In 2007, the most recent year for which figures are available, the average donation was more than \$21.
- Remember to inform your tax preparer you want to Make a Mark for Wildlife this tax season.

**For more information about this program, visit [www.azgfd.gov/makeamark](http://www.azgfd.gov/makeamark).**

# Draw Information

## The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are nonpermit-tags. Nonpermit-tags may be purchased directly from Department offices or through license dealers.

## Qualifications

Individuals wishing to participate in a drawing or to purchase bonus points must apply in writing using the Hunt Permit-Tag Application Form.

Each applicant must possess a valid license for the year in which the hunt will take place or possess a lifetime, pioneer or disabled veteran's license. Non-resident Three-Day Class H licenses may not be used in applying for big game hunt permit-tags. **Youth applying for big game hunts must be licensed.** Applicants not licensed for the year in which the hunt will take place must submit the information and fees required for a license on **each** paper application submitted. Only one license will be issued to you and you will receive a refund for the other license fees submitted. The license will not be issued and mailed until refunds and hunt permit-tags are mailed per the schedule on page 12.

## Applying For A Hunt

Paper applications for hunt permit-tags must be made on Hunt Permit-Tag Application Forms available at Department offices, Web site, and license dealers. Please use the current year's application form, that is WHITE in color. **Do not cut or alter application form.** Applications not prepared in a legible manner may be deemed not valid and shall be rejected as specified in R12-4-104(O). Use standard blue or black ink (no gel ink).

No more than four people may apply in one envelope. All applicants in a group must apply for the same hunt number(s) and in the same order of preference on the same form.

No person, including juniors, may submit more than one valid application per genus of wildlife in any calendar year, except as specified in R12-4-104(L), when genera are drawn in multiple drawings; however the annual bag limit still applies.

Each applicant shall complete only one block per application.

No more than one genus may be included on each Hunt Permit-Tag Application Form. Use a separate form, payment and envelope for each genus of wildlife you wish to hunt. You can list a general hunt as your first choice and another weapon type hunt for the same genus as another choice on the same application—just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing weapon choices.

**Only a single application and the correct fees must be included in one (1) envelope. More than one (1) application in an envelope may result in rejection of all applications.**

## Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from using the permit. In such situations, the Arizona Game and Fish Department disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances, such as activation of military or emergency personnel, as stated in R12-4-107(L).

## Fees

When submitting paper applications, each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag, which includes the permit application fee.
2. Fee for a hunting license, if a license is requested. Be sure to enclose license fees on **each** application, if required, for each per-

son who is applying on the application for a hunting license. Only one license will be issued per person.

3. **Discounted hunt permit-tag fees are for "Juniors-Only" designated hunts. A youth must pay the higher fee unless applying only for "Juniors-Only" hunts.**

Each payment enclosed with a hunt permit-tag application shall be made by certified check, cashier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted and will result in rejection.

One personal check or money order can cover all fees for each application.

The permit and license fees are specified in the fee schedule on pages 6–7. The hunt permit-tag fees on page 6 include the non-refundable application fee.

## Submitting Applications

Applications (except first-come, sandhill crane, and raptor applications) may be hand-delivered to Department offices in Phoenix, Mesa, Tucson, Flagstaff, Pinetop, Kingman or Yuma. Mailed applications must be sent only to the Department's Phoenix Office at P.O. Box 74020, Phoenix, AZ 85087-1052. On deadline days, Department business offices close at 5:00 p.m. (MST), but applications can be delivered to drop boxes until 7:00 p.m., (MST). Drop boxes are locked promptly at 7:00 p.m., (MST). All applications must be received by the Department before the deadline. Deadlines for submission are specified in the Hunt Permit-Tag Application Schedule on page 12. Postmarks don't count.

**Complete and proper preparation of an application is the sole responsibility of the applicant.**

## What Happens To My Application?

Any application not properly prepared, submitted with insufficient fees or one that is illegible is not valid and will be rejected.

If there is an error that will result in the rejection

## Draw Information

of an application and the application is received by the Department on or before Thursday, January 21, 2010, we will make three attempts within a 24-hour period to notify you by telephone if a phone number is provided. If we are able to contact you by phone and our customer service representatives can correct the application at that time, they will do so and enter the application in the Draw. If an error cannot be corrected by phone, we will still attempt to notify you of the error and advise you to re-submit your application. The applicants may then prepare a new Hunt Permit-Tag Application Form, include the appropriate fees and re-apply by the scheduled deadline date.

If any applicant in a group is rejected for any reason, all other applicants in that group will also be rejected and no bonus points will be awarded.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to each successful applicant.

### What If I'm Not Drawn?

Please use one of the methods (telephone or Internet) listed on this page to access draw results. These methods of access shall serve as the official notification of draw results.

Over-payments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on the Hunt Permit-Tag Application Form. Application and li-

cense fees will not be refunded. You will not be issued or charged for more than one license.

If you or a member of your group elected to donate your fees or a portion thereof, the donation will not be refunded. A hunting license is required to apply in a drawing. If an application is rejected and a license has been requested, the license will not be issued.

Unsuccessful, valid applications will be awarded bonus points.

Big game hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis as specified in the hunt permit-tag application schedule on page 12.

### Purchasing A Bonus Point Only

In the event you do not wish to participate in a big game drawing for pronghorn antelope or elk, but still wish to accumulate bonus points for these genera, you may "purchase a bonus point."

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice or any other hunt numbers appear on the application, your application will be rejected.** You may purchase only one bonus point per genus per drawing.

**To purchase a bonus point, the individual must be 10 years old by the deadline date as specified in the hunt permit-tag application schedule on page 12.**

To purchase a bonus point, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the application fee per applicant. If applying for a bonus point, your application will **NOT** be entered into the draw and you will not receive a refund on the license fee or the application fee. Do not include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. **A bonus point purchase costs you only the license fee (if needed) and the \$7.50 application fee per applicant.**

**If applying for more than one species for bonus points, you must complete a separate application for each species. Only a single application and the correct fees may be included in one envelope.**

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

# How to Apply for the Draw

## Completing Your Paper Hunt Permit-tag Application Form

In order to participate in the draw you must correctly fill out and sign a paper hunt permit-tag application form and submit it by mail or drop it off to any of the seven Arizona Game and Fish Department offices along with a check or money order for the correct amount. Paper application forms are available at all Department offices, more than 300 license dealers statewide, and as a downloadable PDF electronic document from the Department's Web site at [www.azgfd.gov/draw](http://www.azgfd.gov/draw). A list of dealers can be found on the Department's Web site. The use of the PDF form requires that the free Adobe Reader software be installed on your computer. The PDF form can be printed from your computer and then filled out using an ink pen or you can fill it out on your computer using your keyboard (this form does not alert you if an error is made). Once the form has been correctly filled out, it must be printed, signed and submitted by mail or dropped off at the Department along with a check or money order for the correct amount. There is no online draw application process – only paper application forms mailed or dropped off at a Department office are eligible for entry into the draw.

R12-4-104 and R12-4-114 explain application and drawing procedures in detail. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

Numbered paragraphs correspond to numbers circled on the SAMPLE form, use it to assist you in completing your form, which can be found online, at any license dealer or Department office.

**1 Enter the hunt number(s) of the hunt(s) in which you wish to participate.** The hunt number will indicate the genus (deer, turkey, etc.) and area you want to hunt. **Do not use the Game Management Unit Number.** Hunt numbers are listed in the far left column of each Commission Order. Deer hunts are in the 1000 series, turkey hunts are in the 4000 series, etc. All hunt numbers on an application must be in the same series. YOU CANNOT MIX HUNT SE-

In order to participate in the draw, you must have or apply for a license. The license fee must be included with each application. See the applicable hunt regulations for license fees.					

RIES NUMBERS, BUT YOU CAN MIX WEAPON TYPES WITHIN A SERIES. You must submit a separate application for each genus (series). No more than five hunt choices can be requested. You may request fewer. You do not have to fill in all the blocks. You may only apply for either a bonus point or a valid hunt number for any genus, NOT both.

**2 Enter your correct date of birth (mm/dd/yyyy).**

**3 Enter your Social Security Number.** In accordance with Federal Requirement, 42 U.S.C. Section 666 (A)(13) and A.R.S. 25-320 (P) and 25-502 (K), you **must** provide your valid Social Security Number in the space provided. This is kept on file with the Arizona Department of Economic Security for use in identifying and tracking child support offenders. Any invalid SSN will result in rejection of the application. If

you are not a U.S. citizen you must write "NOT US CITIZ" in the Social Security field. If you are not a U.S. citizen, you must obtain a Department I.D. Number prior to submitting and enter it on the application. See #6. You may obtain a Department issued ID number by calling (602) 942-3000 during business hours.

**4 Check the appropriate resident or nonresident box.** Resident means a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application, or a member of the Armed Forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license.

**5 Enter your valid Arizona hunting license number for the year in which the hunt for which you are applying occurs.** The hunting license number consists of two letters and six

numbers. You may purchase a license through the draw by completing the License Application Form at the bottom of the application and submitting payment with each of your applications if you are not licensed.

**6 Enter your Department I.D. Number (formerly called Sportsman I.D.).** This number is for those individuals who choose to use a Department issued I.D. Number instead of a Social Security number to track bonus points or for non-U.S. citizens. This is a permanent number and is to be used on all hunt applications. Your I.D. Number (if different from SSN) is vital to track your bonus points and to ensure that you receive the proper credits. Using a different number may result in your not receiving proper bonus point credits. An I.D. Number may be obtained by calling the Department. You **must** still provide a valid SSN even if you provide a valid Department I.D. Number. See #3.

**7 Enter your correct full name (last name first), home mailing address, city, state and zip code.**

**15** Enter the number of years and/or months that you have been a resident of Arizona. (See page 10, Completing Your Hunt Permit-Tag Application Form, # 4, to determine if you qualify.) No entry is required here for a nonresident applicant.

**16** Check the box next to the license type which you wish to purchase. **If you are requesting a license on more than one application, you must specify the same class of license on each application and include the license fee with each application. You will not be issued or charged for more than one license.** If you are not licensed for the year in which the hunt will occur, you must complete the License Application Form for each genus applied for and include payment for a license with each application. If you are drawn for more than one genus, only one license will be issued in your name. If you are not drawn, you will be refunded only the hunt permit-tag fee. You must possess or purchase a license to participate in a drawing or to purchase a bonus point. ## Thank You Hunters and Recreational Shooters

Arizona's rich outdoor heritage is enjoyed by all – thanks to hunters like you, whose purchase of hunting and recreational shooting equipment supports wildlife management and habitat enhancement in the Grand Canyon State. When you purchase a rifle, ammunition, archery equipment, and other sporting gear, you pay a federal excise tax and import duties.

Since 1937, this money has been collected by the federal government and redistributed to the states using a

formula based on hunting license sales and the state's land area. In 2009, that meant over \$8.3 million for game management in Arizona. This money paid for game surveys, hunter education classes, wildlife water catchment construction, wildlife research and shooting range development and operations, among other projects.

Hunters like you are part of the largest and most successful wildlife conservation programs in the world...thank you!

## Sign up for a Mentored Hunting or Juniors-only Event

It is important that the next generation learns how hunting plays a significant role in the conservation and management of wildlife. The Department offers a wide variety of juniors-only programs. These programs are designed to get children in the field with a parent, guardian, or mentor who can focus completely on the child, and provide the guidance needed. To learn more, visit [www.azgfd.gov/hunting](http://www.azgfd.gov/hunting).

With the assistance of a pass-through grant

program funded by the National Shooting Sports Foundation's (NSSF) Hunting Heritage Partnership, the following camps are offered to introduce youth to hunting.

## Course information

Young hunters ages 10-13 looking to take to the field on a big game hunt will need to pass an Arizona certified hunter education course before his or her hunt.

With time constraints and busy schedules, one of the best ways to get this done is by going online to [www.hunter-ed.com/az](http://www.hunter-ed.com/az).

This self-paced online course covers all the elements of the "Today's Hunter in Arizona" booklet, however, to become certified, students must also successfully pass a mandatory "hands-on field day" within 90 days of completing the online course work.

Parents are encouraged to take the class too. In addition to learning how to be a safe and ethical hunter, there are many other good reasons to take the course, including:

- hunting techniques
- hunter responsibility and ethics
- how firearms work
- firearm safety and use
- wildlife identification
- wildlife conservation and management
- survival and first aid
- make new friends with similar interests

## 10 Commandments of Hunting Safety and TAB +1

1. **T**reat every firearm as if it were loaded! It might be, even if you think it isn't!
2. **A**lways keep the muzzle in a safe direction. Keep control of the direction of the muzzle at all times.
3. **B**e sure of the target and beyond. Be aware of what is in front of the target. Know the identifying features of the game you hunt. Make sure you have an adequate backstop – don't shoot at a flat, hard surface or water.
4. **+1** Keep your finger outside the trigger guard until ready to shoot. This is the best way to prevent an accidental discharge.
5. Check your barrel and ammunition. Make sure the barrel and action are clear of obstructions, and carry only the proper ammunition for your firearm.
6. Unload firearm when not in use. Leave action open; carry firearm in a case and unloaded to and from the shooting area.
7. Point a firearm only at something you intend to shoot. Avoid all horseplay with a gun.
8. Don't run, jump, or climb with a loaded firearm. Unload a firearm before you climb a fence or tree, or jump a ditch. Pull a firearm toward you by the butt, not the muzzle.
9. Store firearms and ammunition separately and safely. Store each in secured locations beyond the reach of children and careless adults.
10. Avoid alcoholic beverages before and during shooting. Also avoid mind- or behavior-altering medicines or drugs.

***While there is no requirement for hunters to wear orange in Arizona, the department **STRONGLY** suggests that all hunters adopt this valuable safety precaution to help others see and identify them in the field.***

## 2009 Drawing Odds

Hunt Success for 2009 seasons was not available at the time of printing. Hunt Success data will be included in the Hunt Arizona book, which is reprinted yearly in May. Draw odds reflect an applicant's chance of receiving his or her first choice and are computed without regard to bonus points or residency. Draw odds showing zero (0) indicates your odds are less than 1 percent.

# Supplemental (Population Management) Hunts and Hunter Pool

Beginning in 2003-2004, the Arizona Game and Fish Department established Population Management Hunts and the Hunter Pool. AZGFD Wildlife Managers have found that previous hunt strategies designed to manage some wildlife populations are not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the Department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the Department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (refer to the current Hunting and Trapping Regulations).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the Department Dec. 31, 2010. You may apply at any time during the year (note: do not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).
- To complete your application, you must designate the species of animal(s) you desire to hunt and the weapon type(s). You must also submit a \$7.50 application fee (note: one \$7.50 application fee per application—not per species). Please do not send cash.
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.E. prohibits the issuing of a refund for the purchase of a license or a permit).
- If your application is selected during a random drawing for a population management hunt, the Department will attempt to contact you three times by telephone within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that year.
- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Department's Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.
